

Life Cycle Assessment: Results

The following supplementary LCA results are to be read alongside the complete ROCKWOOL® Environmental Product Declaration, attached.

ROCKWOOL® stone wool product:

RWA45

The results are for: 1 m2 of product,

with a thickness of

50 mm.

Thermal resistance as stated in product data sheet.

Limitations

Conservative choices are made in the LCA as described in the ROCKWOOL® Group LCA rules. Therefore, the results can be considered to be conservative and worst case.

The global warming potential of a gas refers to the total contribution to global warming resulting from the emission of one unit of that gas relative to one unit of the reference gas, carbon dioxide, which is assigned a value of 1.
